Monday, September 30th

[Please RSVP here](#)

PIZZA LUNCH PROVIDED WITH RSVP

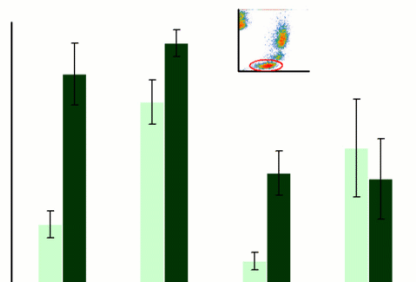

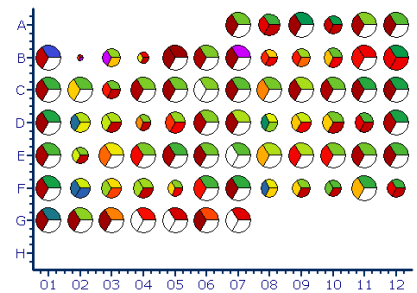

FCS Express Training

11:30-15:00

Room 8-502

Want to analyze data easily?

- Mac and PC compatible
- No limits on number of events/parameters, file size
- Load data from any flow cytometer, and do plate based analysis from HTS systems, looking at up to 7 parameters at once.
- Built in Transformations (tSNE, viSNE, SPADE)

Need your results faster?

- Create publication-quality figures at any resolution and preferred format
- Use FCS Express to create your charts and click to adjust gates within your layout for real time updates of your actual RESULT

Discover how to save time with your standard flow data analysis using UHN's FCS Express site license! Please scan QR code to register and receive installation instructions.

Hurry! The free introductory period ends 12/31/2019
